march 6-8, 2026

RED DEER, AB
WESTERNER PARK

welcome to the

RED DEER HOME SHOW

The Red Deer Home Show, where spring begins in Central Alberta.

This is a true honour for me to welcome you to the 47th annual Red Deer Home Show. This show has been **locally produced since 1979 by a non-profit association** representing the residential construction industry in our region called BILD Central Alberta. That matters. Because when you walk through these doors, you are not stepping into a corporate event, you are supporting a community-driven showcase built by local professionals, for local residents. Every booth, every conversation, and every display reflects the businesses, trades, and suppliers who live and work right here at home.

For nearly five decades, the Red Deer Home Show has served as the unofficial kickoff to spring. It's the moment when ideas turn into plans, renovations move from vision to action, and dreams of new builds begin to take shape. This is where you discover what's new in our community from the latest in design trends, energy efficiency, building technology, landscaping inspiration, and innovative products that are shaping the future of Central Alberta homes.

More importantly, this show connects you directly with the people behind the work. In a world where so much happens online, the value of face-to-face conversations cannot be overstated. Here, you can ask questions, compare options, explore solutions, and build trusted relationships with the experts who understand our climate, our building standards, and our community.

The Red Deer Home Show feels like home because it is home. It celebrates the businesses and organizations that build our neighbourhoods, support our charities, sponsor our kids' teams, and invest back into our region year after year.

Thank you for being part of this tradition. We are proud to welcome you and proud to showcase the community that makes Central Alberta such a special place to live.

Chris Windrim
Executive Director

show activities

**BID HERE
FOR PLAYHOUSES**
